Re: Full Compliance for the Letter of Deficiency (LOD) dated November 19, 1998  
Sanborn Pond Outlet Dam #143.10, Loudon

Dear Mr. Deely

We have received a description of the grist mill gate restoration, which took place in August 2001 and it has been recorded that you have distributed the final EAP to local state agencies listed in Appendix F of your EAP. The Department of Environmental Services (DES) has determined that the deficiencies noted in the above referenced LOD have been corrected. DES appreciates your cooperation in this matter.

The next routine inspection of this dam is scheduled for the 2006 inspection season.

If you have any questions or comments, please contact me at 271-3406 or write to the Water Division at the address listed above.

Sincerely,

 **COPY**
